Getting MAINVIEW Forums: Not authorized to view the specified community 2159.

Last interaction I personally had in the MAINVIEW Forum was last fall.

I know I was authorized before as per this:

To: Robert, Gilles

Subject: BMCDN Watch: User developed REXX execs behind BBV Ruleset Strategies by hpuckett in forum MAINVIEW AutoOPERATOR (new message in forum) [Ijnm-16D-ku8]

Forum: MAINVIEW AutoOPERATOR

Author: hpuckett

Subject: User developed REXX execs behind BBV Ruleset Strategies

Looking for shareable REXX execs to automate email notification when certain DB2, MVS, TAPE messages are intercepted. We are just cranking up our automation and could use a 'jumpstart'. Email messaging process will likely be combination of IMFEXEC TAILOR and IMFEXEC JESSUBM due to our SMTP restrictions. Thanx in advance.

Gilles Robert,

Can not access MAINVIEW Forum

You are watching the forum "MAINVIEW AutoOPERATOR", which was updated Aug 20, 2008 6:21:32 AM by hpuckett. To open the forum:

The MAINVIEW Forum has been moved and is now located here:

Not authorized to view the specified community 2159

Let me know if you're able to access that or have any more issues.

Hello Blake,

I tried the link and logged in and received this:

Can not access MAINVIEW Forum

This area of the BMC Developer Network is visible only to registered, logged in users. If you are logged in when you receive this message, then you might not have sufficient access privileges to view the requested page. Please [contact us](#) if you need further assistance.

Please advise.

Thanks for your help, Gilles
