

Ability To Add - Articles as Book Mark or Favorites in BMC RKMS Support

Hi Team,

Some time we need to either Copy the KB Link and remember KB no so that in future i can easily refer to a given KB Article.

It would be nice to have a feature where we can add these articles on BMC RKMS Site to add as favourite or Book Mark.

Right now i can see - Previously Asked Questions Section where it keeps the recently searched /opened KB, but this got over written by recent searches.

Previously Asked Questions

Regards

RP
