

Ability to have a URL that redirect us to an specific SR category in Selfservice

We would like to have the ability to have a URL to an specific category in Selfservice displaying all related Services Requests. Currently below URL redirect us to the general page "Request a Service" page showing all the available categories.

<https://bmc servicedesk.na65.visual.force.com/apex/selfservicenew#/support/problem-requests/all/segregation>
